NAET® Treatment & Acupressure Consent Form

I certify that Nicole Peterson, LAc, MAcOM does not claim to cure any illness or disease with NAET® (Nambudripad’s Allergy Elimination Techniques). I understand that NAET® is not a medical diagnostic procedure and does not diagnose any disease. Rather, NAET® gives the practitioner an indication as to the substance(s) to which the patient may have sensitivity. NAET® uses various, standard medically proven modalities (allopathic, chiropractic, kinesiological and acupressure) to diagnose the patient’s condition. The premise behind NAET® is to desensitize a patient to a substance(s) using acupressure, nutritional, and kinesiological principles so that the patient may no longer experience hypersensitive symptoms when they have future contact with them.

I understand that I am to continue all medications and other treatment modalities as they have been prescribed unless otherwise directed by the doctor who prescribed them. During the 25 hours after my treatment, if I get a life-threatening reaction from the allergen I was treated or from some other sources, I need to seek emergency help immediately from a physician qualified in emergency treatments, by calling 911, or by attending an emergency room at the local hospital. If I am suffering from severe allergic reactions to substances, I should consult an appropriate physician and take appropriated medication to keep my symptoms under control while I am being treated with NAET®.

I understand that for 25 hours after the treatment, I am to avoid eating, touching, and breathing the substance(s) that I have received treatment for. If I come in contact with the substance(s) for which I am being treated, I realize that the treatment may not work, and I may continue to have a sensitivity reaction. If I did not clear them completely, I may be required to repeat the procedure (more office visits at my cost) until I clear them satisfactorily.

I do not expect the acupuncturist or clinical staff to be able to anticipate and explain all possible risks and complications of treatment, and I wish to rely on the acupuncturist and clinical staff to exercise judgment during the course of treatment which the acupuncturist and staff thinks at the time, based on the facts then known, is in my best interest. I understand that results are not guaranteed.

I understand the clinical and administrative staff may review my patient records and lab reports, but all of my records will be kept confidential and will not be released without my written consent.

By voluntarily signing below, I show that I have read, or have had read to me, the above consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and I have had an opportunity to ask questions. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.

INFORMED CONSENT TO TREAT FOR ACUPUNCTURE

Please note: Signature is only required if patient is going to receive acupuncture.

I hereby request and consent to the performance of acupuncture treatments and other procedures within the scope of practice of acupuncture on me (or patient named below for whom I am legally responsible) by acupuncturist Nicole Peterson, LAc, MAcOM and/or acupuncturist who now or in the future treats me while employed by, working or associated with, or serving as back-up for Nicole Peterson, LAc, MAcOM including those working at Ashland Family Acupuncture or any other office or clinic, whether signatories to this form or not.

I understand that methods of treatment may include but are not limited to acupuncture, moxibustion, cupping, electrical stimulation, massage, applied kinesiology, herbal medicine, nutritional counseling and nutritional supplements. I understand that the herbs or supplements need to be consumed according to the instructions provided orally and/or in writing. The herbs or supplements may have an unpleasant smell or taste. I will notify the office immediately of any unanticipated or unpleasant effects associated with the consumption of herbs or nutritional supplements.

I have been informed that acupuncture is a generally safe method of treatment, but that it may have some side effects including bruising, numbness or tingling near the needling sites that may last a few days, and dizziness or fainting. Bruising is a common side effect of cupping. Unusual risks of acupuncture include spontaneous miscarriage, nerve damage and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk; however, this clinic uses sterile disposable needles and maintains a clean and safe environment. Burns and/or scarring are a potential risk of moxibustion, cupping, and heat lamps.

I understand that while this document describes the major risks of treatment, other side effects and risks may occur. The herbs and nutritional supplements that are recommended are traditionally considered safe in the practice of Chinese Medicine, although some may be toxic in large doses. I understand that some herbs may be inappropriate for pregnancy. Some possible side effects of taking herbs are nausea, gas, stomachache, vomiting, headache, diarrhea, rashes, hives, and tingling of the tongue. I will notify Nicole Peterson, LAc, MAcOM if I become pregnant.

I do not expect the acupuncturist or clinical staff to be able to anticipate and explain all possible risks and complications of treatment, and I wish to rely on the acupuncturist and clinical staff to exercise judgment during the course of treatment which the acupuncturist and staff thinks at the time, based on the facts then known, is in my best interest. I understand that results are not guaranteed.

I understand the clinical and administrative staff may review my patient records and lab reports, but all of my records will be kept confidential and will not be released without my written consent.

By voluntarily signing below, I show that I have read, or have had read to me, the above consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and I have had an opportunity to ask questions. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.
